

# UX / UI Designer

## Susanne Wiemer

### About Me

With diverse experience in developing digital solutions, from SaaS products to mobile apps and web designs, I am focused on designing user-centered interfaces. My intuitive designs are based on comprehensive user data, fostering innovative solutions that deliver real value.

My approach is characterized by a deep understanding of business objectives and a lean, agile workflow that drives projects efficiently and purposefully.

### Skills

**User-Centered Design:** Expertise in developing product designs based on deep user insights and feedback.

**Prototyping and Testing:** Experience in creating wireframes, prototypes, and conducting usability tests to validate and optimize design concepts.

**Collaboration:** Effective collaboration with stakeholders and cross-functional teams to develop design solutions that align business objectives with user needs.

### Personal Attributes

**Problem Solver:** Ability to analyze complex challenges and develop effective solutions.

**Agile Methodology:** Adaptable in fast-paced environments, with a strong focus on iteration and continuous improvement.

**Lifelong Learning:** Committed to personal and professional development to stay at the forefront of UX design.

### Certifications

2018 – Present

#### **IxDF / Interaction Design Foundation**
